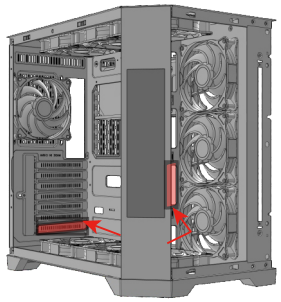
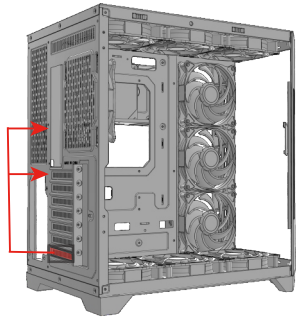
O Connect the LCD display

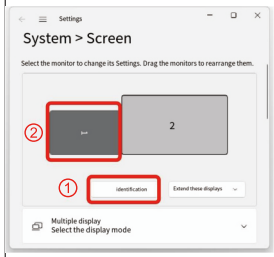


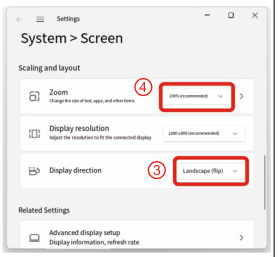
HDMI to Mini-HDMI x1



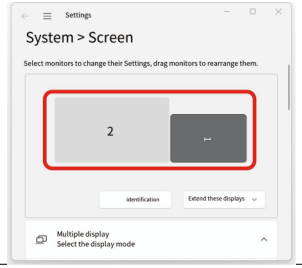
USB Type-A to USB Type-Cx1

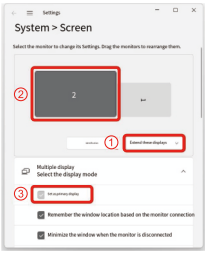
1. Secondary screen vertical horizontal display Settings: right-click on the desktop of the main screen, pop up the dish cover, clickl "Display Settings" and "Logo" to select the icon whose serial number is secondary screen. Slide down the menu to change the "Portrait" to "Landscape (flip)" in the display direction and finally "Retain changes". After the screen landscape display, check the secondary screen zoom Settings,The value must be set to 100%.





2. Select the secondary screen indicator icon in the Settings menu and drag it around the main screen for positioning, which is usually consistent with the actual position of the primary/secondary screen. Click "Apply" after adjustment.





3. Check other Settings: Multi-monitor mode Select Extend these Monitors and set the home screen to Primary Monitor.

4. Right-click the taskbar at the bottom of the main screen, and choose Taskbar Settings from the displayed menu. Slide down the menu to expand Taskbar Behavior to clear the selection "Show Taskbar on all monitors" option, then confirm that the taskbar under the secondary screen has disappeared.
