

XYZ

2025 CATALOGUE

At the Heart of Innovation, a Vision Takes Shape

Our brand was built from the ground up. Founded in 2007 by engineers and hardware experts, we embarked on a journey to create exceptional hardware for PC enthusiasts, enabling users to explore their creativity and push the boundaries of their digital experiences. It was in 2021 when we conceived the XYZ brand, built upon all our experience gained since our inception. Our goal: a relentless pursuit of excellence that led to the development of innovative products with a clear focus: to enhance the PC user experience to exceptional levels.

Beyond High-Performance Chassis

At XYZ, we believe that the future of personal computing is limitless. We are excited to continue our journey of innovation, pushing the boundaries of what is possible and empowering users worldwide to create, connect, and thrive in the digital age.

Join us on this exciting journey as we shape the future of technology together.

Dive into your next dimension

Pioneer Three-Dimensional Design

For XYZ, the coordinates X, Y, and Z represent more than just the location of a point in three-dimensional space. Each of these coordinates symbolizes our philosophy when developing our products: design, innovation, and performance.

X: Represents our dedication to exceptional design, focusing on aesthetics and functionality.

Y: Symbolizes our commitment to constant innovation, always seeking new ways to improve and surprise.

Z: Encapsulates our insistence on superior performance, ensuring that each product not only meets but exceeds expectations.

This three-dimensional approach resulted in high-performance chassis that were not just utilitarian boxes, but works of art that enriched the overall computing experience. We create products with a purpose, always thinking about the user's benefit and with the necessary motive to contribute to their daily lives. Our philosophy is also based on this principle.

PC CASE

STYLISH
FUNCTIONALITY
DURABILITY

The home of every high-performance system. At XYZ, we design chassis that offer the perfect combination of style, functionality, and durability, providing a secure core for your components of any range. From minimalist and compact designs to extra-large and bold options with integrated RGB lighting, plus meticulously crafted designs based on airflow efficiency. At XYZ, you'll find the perfect case to express your style and build the PC of your dreams.

QUANTUM

The Quantum model of XYZ takes the aesthetics of your PC to a new level, is not just beautiful on the outside. Its dual curved glass structure ensures a solid and durable construction, while its optimised interior design offers ample space for high-end components and flawless cable management. A-RGB ventilation ensures efficient airflow to keep your system cool even under the most intense workloads.

-  **4x Integrated Fans**
VORTEX A-RGB + PWM/A-RGB Controller
-  **BTF MB**
Cableless MB backroute
-  **CURVED 2D GLASS**
-  **USB TYPE-C GEN2**
Max speed transfer

-  Up to 420mm Liquid Cooling
-  VGA Max support - 400mm
-  Up to ATX MB Support
-  CPU Max support - 180mm

X-CS-QUANTUM-B

X-CS-QUANTUM-W

QUANTUM PRO

The Quantum PRO of XYZ is our masterpiece. Quantum PRO maintains from the original design its double curved glass structure guaranteeing a solid and durable construction, and adds an extra PRO touch thanks to its 6.2" software customisable display. Combine and generate configurations to your liking by displaying your high performance system data such as CPU, GPU, images and video, truly another level.

-  **4x Integrated Fans**
VORTEX A-RGB + PWM/A-RGB Controller
-  **BTF MB**
Cableless MB backroute
-  **CURVED 2D GLASS**
-  **USB TYPE-C GEN2**
Max speed transfer
-  **DIGITAL SCREEN**
Software Integrated

-  Up to 420mm Liquid Cooling
-  VGA Max support - 400mm
-  Up to ATX MB Support
-  CPU Max support - 180mm

X-CS-QUANTUMPRO-B

X-CS-QUANTUMPRO-W

TESSERACT

Defy the limits of space and time with the XYZ Tesseract, an engineering masterpiece that fuses three-dimensional design with cutting-edge gaming performance.

-  **4x Integrated Fans**
VORTEX A-RGB + PWM/A-RGB Controller
-  **BTF MB**
Cableless MB backroute
-  **360° 3D GLASS**
Front, side and top
-  **DUAL CHAMBER**
Perfect cable management
-  **USB TYPE-C GEN2**
Max speed transfer

-  Up to 360mm Liquid Cooling
-  VGA Max support - 400mm
-  Up to ATX MB Support
-  CPU Max support - 165mm

X-CS-TESSERACT-B

X-CS-TESSERACT-W

TESSERACT X

Experience a new dimension of gaming with the XYZ Tesseract X. This ATX chassis immerses you in a panoramic visual experience thanks to its tempered glass panels, while offering exceptional performance with its dual-chamber design and superior cooling.

-  **7x Integrated Fans**
PULSAR A-RGB + PWM/A-RGB Controller
-  **BTF MB**
Cableless MB backroute
-  **PANORAMIC**
Front, and side 2D glass
-  **DUAL CHAMBER**
Perfect cable management
-  **USB TYPE-C GEN2**
Max speed transfer

-  Up to 360mm Liquid Cooling
-  VGA Max support - 400mm
-  Up to ATX MB Support
-  CPU Max support - 165mm

X-CS-TESSERACTX-B

X-CS-TESSERACTX-W

AIRWAVE X

AIRWAVE X has a mesh-finished front, 4 integrated A-RGB fans and a compact form factor compatible with motherboards up to ATX.

 **4x Integrated Fans**
PULSAR A-RGB + PWM/A-RGB Controller

 **Max Air flow**

 **USB TYPE-C GEN2**
Max speed transfer

 **Mesh Design**

 Up to 280mm Liquid Cooling

 VGA Max support - 300mm

 Up to ATX MB Support

 CPU Max support - 185mm

X-CS-AIRWAVEX-B

X-CS-AIRWAVEX-W

ATOM

Unleash the performance of your system in a compact space with the XYZ ATOM. This Micro-ATX chassis combines a sleek design with efficient cooling and captivating ARGB lighting, perfect for compact and powerful gaming setups.

 **3x Integrated Fans**
PULSAR A-RGB + PWM/A-RGB Controller

 **Max Air flow**

 **USB TYPE-C GEN2**
Max speed transfer

 **Mesh Design**

 Up to 240mm Liquid Cooling

 VGA Max support - 300mm

 Up to M-ATX MB Support

 CPU Max support - 185mm

X-CS-ATOM-B

X-CS-ATOM-W

QUBEX

Unleash the power of your passion for gaming with the XYZ Qubex, the ATX case that fuses minimalist design with exceptional performance.

 **4x Integrated Fans**
PULSAR A-RGB + PWM/A-RGB Controller

 **BTF MB**
Cableless MB backroute

 **A-RGB LIGHTING**

 **DUAL CHAMBER**
Perfect cable management

 **USB TYPE-C GEN2**
Max speed transfer

 Up to 360mm Liquid Cooling

 VGA Max support - 400mm

 Up to ATX MB Support

 CPU Max support - 165mm

X-CS-QUBEX-B

X-CS-QUBEX-W

TRIFECTA

Expand your vision and take your gaming setup to the next level with the XYZ Trifecta, the panoramic case that combines cutting-edge aesthetics with intelligent functionality.

 **2x Integrated Fans**
VORTEX A-RGB + PWM/A-RGB Controller

 **BTF MB**
Cableless MB backroute

 **360° 3D GLASS**
Front, side and top

 **Rotatable PCI-E**

 **USB TYPE-C GEN2**
Max speed transfer

 Up to 360mm Liquid Cooling

 VGA Max support - 400mm

 Up to ATX MB Support

 CPU Max support - 173mm

X-CS-TRIFECTA-B

X-CS-TRIFECTA-W

NEUTRON

XYZ's Neutron series redefines the PC building experience with a bold, futuristic design. These dual-chamber chassis feature a second display integrated into the side, forming a unique angle that allows you to monitor your system's performance and display custom content in spectacular fashion. The combination of integrated A-RGB fans and an A-RGB controller gives you total control over lighting, creating a captivating ambience that suits your style.

X-CS-AIRONE3XM-B

X-CS-AIRONE3XM-W

AIRONE 50

Immerse yourself in an unparalleled ventilation and performance experience with the XYZ AIRONE 50 Mesh. This ATX chassis combines a mesh front panel design with exceptional airflow, giving you the freedom to build a powerful system and keep it cool even under the most demanding workloads.

-  **4x Integrated Fans**
AIRPULSE 100 A-RGB
-  **Max Air flow**
-  **PANORAMIC**
Side tempered glass
-  **Mesh Design**

-  Up to 240mm Liquid Cooling
-  VGA Max support - 320mm
-  Up to ATX MB Support
-  CPU Max support - 155mm

X-CS-AIRONE50-M-B

AIRONE 100 GLASS

Immerse yourself in the beauty of transparency and performance with the XYZ AIRONE 100 Glass. This ATX chassis combines an elegant design with exceptional airflow, providing you with an unparalleled gaming experience.

-  **6x Integrated Fans**
AIRPULSE 100 A-RGB
-  **Max Air flow**
-  **TEMPERED GLASS**
-  **PANORAMIC**
Side tempered glass

-  Up to 240mm Liquid Cooling
-  VGA Max support - 320mm
-  Up to ATX MB Support
-  CPU Max support - 155mm

X-CS-AIRONE1G-B

X-CS-AIRONE1G-W

AIRONE 100 MESH

Immerse yourself in an unparalleled ventilation and performance experience with the XYZ AIRONE 100 Mesh. This ATX chassis combines a mesh front panel design with exceptional airflow, giving you the freedom to build a powerful system and keep it cool even under the most demanding workloads.

-  **6x Integrated Fans**
AIRPULSE 100 A-RGB
-  **Max Air flow**
-  **Mesh Design**
-  **PANORAMIC**

WATER COOLER

PERFORMANCE AND AESTHETICS

Take your system's cooling to the next level with our XYZ cooling solutions. Our all-in-one and custom liquid cooling systems offer exceptional cooling performance and impressive aesthetics. With high-performance water blocks, efficient radiators, silent pumps, and fans specially designed for unique airflow, our liquid cooling products allow you to push your system to the limit without compromising stability or silence.

HYDROVIEW

The XYZ HYDROVIEW series redefines liquid cooling, fusing exceptional performance with unprecedented customisation. These All-in-One (AIO) systems not only keep your CPU running at optimal temperatures, but also allow you to express your unique style through their innovative 3.5-inch digital LCD display.

AIR COOLER

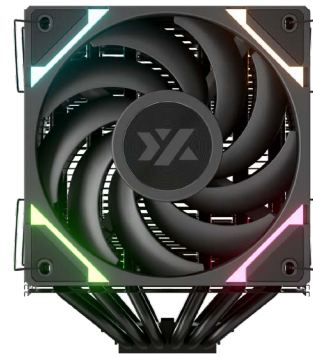

**QUIET, EFFICIENT
AND PERFORMANCE**

Quiet and efficient performance to keep your system at the most efficient temperatures. Our heatsinks and fans are designed to maximize heat dissipation, ensuring that your CPU and GPU operate at optimal temperatures even under the most demanding workloads. Experience quiet and reliable performance with our innovative designs and cutting-edge technologies.

Thermax 6 DUO

Introducing the XYZ Thermax 6 DUO A-RGB. Our ideal air cooling solution to keep your processor at optimal temperatures, even during the most demanding tasks. Its dual fan design with customizable ARGB lighting, 6 heat pipes per side, and its wide socket compatibility make it the perfect choice for gamers and PC enthusiasts.

Socket Compatibility	AMD FM, AM3, AM4, AM5 / Intel LGA 775, 1150, 1151, 1155, 1156, 1200, 1366, 1700, 1851, 2011
Fan Size	120 mm x 120 mm x 25 mm
Overall Heatsink Size	154 mm x 132 mm x 125 mm
Heatpipes	6 copper heatpipes per tower (12 total)
Rated Voltage	DC 12V
Operating Voltage Range	10.8-13.2V

PSU

STABLE, RELIABLE AND EFFICIENT

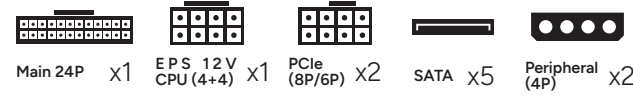

The fuel that powers every high-performance system to its maximum potential. Our power supplies are designed to deliver clean and stable power to all your components, ensuring optimal performance and reliable protection against surges and short circuits. With 80 PLUS certifications and the highest quality components, our power supplies give you the peace of mind of knowing that your system is performing at its best and in the most efficient way possible.

VOLT

Power your system with confidence and efficiency using the XYZ VOLT power supply. This high-quality PSU combines exceptional performance with 80 PLUS White or bronze certification, ensuring reliable operation and low energy consumption. Its intelligent design and silent fan make it the ideal choice for any PC configuration.

PHANTOM

Unleash the full potential of your system with the XYZ PHANTOM power supply. This high-performance PSU delivers reliable and efficient power, with a sleek design and a silent ARGB fan that will add a touch of style to your PC. Designed to meet the needs of gamers and tech enthusiasts, the PHANTOM combines exceptional performance with advanced features to ensure stable and long-lasting operation.

FAN

RGB, PWM DAISY-CHAIN

Optimized airflow for top-level cooling, but in the quietest way possible. Our supplementary fans, used in all our cooling systems, allow you to improve airflow within your system, ensuring that all your components stay cool and operate as efficiently as possible. With RGB lighting options, PWM control, daisy-chain and block connections, along with innovative blade designs, our fans give you the flexibility and performance you need to create an ideal cooling environment for your system.

Fan Speed

Vortex Pro series offers premium A-RGB fans with high performance airflow, quiet operation and wireless block connection technology for easy control. Available exclusively in 3-fan kits, with regular or reverse airflow options and classic black or white finishes.

	Regular	Reverse
Outside dimensions	120 x 120 x 25 mm	
Bearing Type	Fluid Dynamic Bearing	
Nominal Voltage	DC 12V	
Operating Voltage	10.8~13.2V	
	Regular	Reverse
Starting Voltage	DC 5 V MAX	
Rated Current Tag	0.20A ±20% MAX	
Locked Current	0.21A ±20% MAX	
Power Consumption	1.80W ±20% MAX	
Rotation Speed	600-2000 ±10% R.P.M	
Maximum Air Flow	62.7 CFM (ft ³ /min)	54.73 CFM (ft ³ /min)
Max. Static Pressure	2.68 mm-H ₂ O	2.05mm-H ₂ O
Max. Noise Level	32dB(A)	31.4dB(A)
Min. Noise Level	18.5dB(A)	

VORTEX SERIES

XYZ Vortex high-performance A-RGB fans combine fluid dynamic bearings for quiet operation with optimized airflow. Available in kits or individually, with regular or reverse airflow options, and in black or white finishes, Vortex fans customize your system and achieve superior cooling without sacrificing aesthetics.
